

Super Boof Auto

Richly resinous and balanced.

- **Unprecedented Potency.** Packed with 28.5% THC, this famed hybrid hits hard in a hurry.
- **Dense Trichome Drenched Buds.** Unbelievably high resin production ideal for making high-quality hash and concentrates.
- **Effortless Cultivation & XXL Yields.** Great for new, experienced, and professional growers who demand huge harvests.
- **Perfectly Balanced Head & Body High.** Uplifted cerebral bliss blended seamlessly with a super chill, relaxed physical sensation.
- **Citrusy Sweet & Earthy Taste.** Bold sweet citric flavor with smooth earthy and floral undertone.

Super Boof Auto is a perfectly balanced hybrid with preposterous potency that delivers a balanced head and body high so perfect she took home first place for Leafly Strain of the Year in 2024. With a potency that consistently tests at 28%, just one toke of her dazzling dense trichome encrusted buds that with a sweet berry and earthy forest flavor followed by a smooth floral finish will instantly lift you into a fabulous feeling of focused cerebral euphoria. Her blissful head high inspires a giggly, creative vibe that will have you alert and engaged while enjoying super calm and perfectly chill physical effects with zero couch-lock or lethargic comedown. Easy-to-grow, this beginner-friendly beauty provides a hassle-free harvest, whether you've been cultivating cannabis for decades or preparing for your first ganja garden. Super Boof Auto thrives in moderately warm and dry conditions — but will need some support in the last weeks of flowering to hold up her dense, heavy flowers to help keep her branches from snapping. By incorporating LST in early veg stage and supporting her branches with bamboo stakes, trellis, or tomato cages towards the end of flower, you'll increase airflow, prevent mold, and reap the benefits of a healthy harvest — this resinous, rising star will reach heights of 110-150 cm, producing 550-650 gr/m2 indoors and 50-350 gr/plant outdoors when cultivated with care. With next-level trichome production, this strain produces insanely resinous, light green and deep purple-hued buds perfect for hash and resin production — so perfect, in fact, that she took home back-to-back wins at the Ego Clash in 2023 and 2024 for best ice water hash. Super Boof isn't only ideal for growers of all abilities, she's highly recommended for anyone interested in creating high amounts of high-quality hash or professional extractors known for producing top-shelf cannabis concentrates.
